Free Service - VirtualDJ

Start VirtualDJ

If you haven't already, install VirtualDJ. It is a straightforward installation like with most software.

Once the installation is done open up VirtualDJ.

NOTE: You can only do broadcasting with VirtualDJ Broadcaster and VirtualDJ Pro. The free Home edition of VirtualDJ therefore won't work.

Getting The Details

After you have gone through the whole installation setup make sure that the server is on. If it is OFF press the Turn ON button - it might take up to 60 seconds until the status is switched to ON.
